Elmcitywebmakers

What is it?

Elmcitwebmakers is a joint program organized by Concepts for Adaptive Learning and Southern Connecticut Sate Univerity designed to teach New Haven Youth and Parent digital literacies through the publishing of a personal website.

What will participants do?

The curriculum for the program was developed by Dr. J Gregory McVerry of SCSU. In fact the materials used in the program align with Dr, McVerry's technology fluency class. Each day there will be a short lesson followed by time to "hack" on your own website. Nut free snacks are provided.

What is ths cost?

The program is free. Anyone who comes to two events will be given a website. We will also have a private chat and a public wiki.

When and where?

Elm City Webmakers meets after school at the Concepts for Adaptive Learning 5 Science Park #Suite 2C, New Haven, Connecticut until 5:30. Transportation is not provided
